

HEKABAU

PE-HD Foundation Pipes in Traffic Route Construction and Gardening/Landscaping

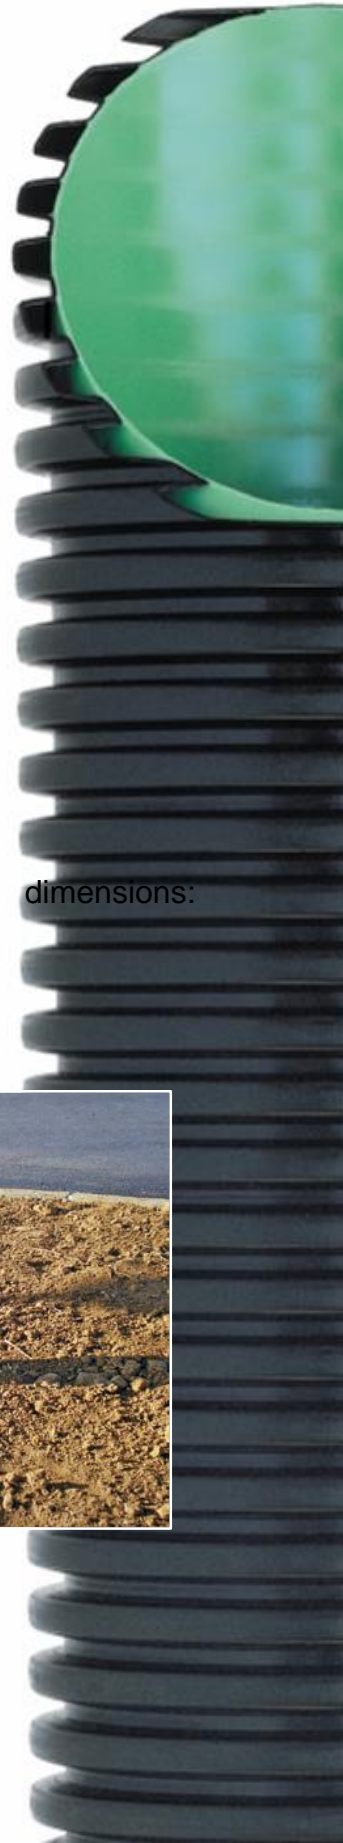

Fields of application/intended use

- Lighting and power poles
- Flag poles
- Sign posts
- Point foundations in gardening/landscaping

Advantages

- Self-supporting design
- Robust raw material PE-HD
- Simplified installation
- Practice-oriented
 - four nominal sizes: DN 250, DN 300, DN 350, DN 400
 - two effective lengths: 1.0 m und 2.0 m

dimensions:

Stability is always of advantage

Fields of application

HEKABAU foundation pipes can be used wherever point foundations are required as supports or to secure components. The most common applications are the anchoring of lighting and flag poles or sign posts. Outdoor equipment in gardening/landscaping can be securely founded with HEKABAU.

Installation

Prior to installation, the cabling needs to be fed in. HEKABAU pipes are installed completely in concrete or with suitable filling material, depending on the structural requirements. The rod/pole is embedded in sand or stabilised with concrete, in addition. The upper edge is closed by concrete to prevent water penetration.

Planning

The correct selection of the foundation pipe depends on various local parameters, which are taken into account by the planner in advance:

- Structural parameters like construction height, weight, wind load etc.
- Application
- Local soil conditions

HEKABAU

Foundation pipes of PE-HD in twin wall design

Nominal size	Packing unit	Item number
DN 250	11	7640125
DN 300	6	7640130
DN 350	6	7640135

End cap

Nominal size	Packing unit	Item number
DN 250	1	7642925
DN 300	1	7642930
DN 350	1	7642935

DN 400 and DN 500 on request

The information given in this brochure is the most up-to-date available and is intended to provide information on our products and their possible applications. It is not a guarantee of certain features or of their suitability for certain specific applications. Our guarantee applies to compliance with our specifications, within the scope of our General Terms and Conditions. The current edition supersedes any former versions. Subject to change.
